

Roman Petrov

SOFTWARE QA ENGINEER

North Attleborough, MA · 617.259.8620 · rpetrovqa@gmail.com · <https://www.linkedin.com/in/rmpetrov/>

Legal Status: U.S. Citizen · Free to relocate

Experienced **Software QA Engineer** with 7+ years of experience testing web and mobile applications, driving product quality and reliability. Executed over 1,000 test cases, identified and reported hundreds of critical defects, reducing post-release issues by 20% and enhancing software performance. Proficient in manual testing, with expertise in test planning, execution, and defect tracking. Currently expanding skills in test automation using Selenium WebDriver to improve efficiency and test coverage. Collaborated with cross-functional teams to accelerate release cycles by 15%, ensuring timely delivery of high-quality software.

SKILLS

Test Tools: Selenium WebDriver, Appium, Postman, Cucumber, REST API

Languages & Scripting: SQL, Python, JavaScript, HTML, XML, CSS, Ruby

Platforms: Windows, Linux/UNIX, macOS, iOS, Android

CI/CD & DevOps: Jenkins, Git, CircleCI

Browsers: Chrome, Firefox, Safari, Edge, Opera, IE

Databases: Oracle, MySQL, PostgreSQL

Project Tools: JIRA, TestRail

PROFESSIONAL EXPERIENCE

Personify Health, remote from North Attleborough · Software Development Engineer in Test (Aug 2022 – Mar 2025) · Software QA Engineer (Jul 2019 – Aug 2022).

- Defined UAT test plans with Product Owners and scrum teams, reducing post-release defects by **20%** and improving business alignment.
- Identified and reported over 500 software defects, ensuring timely fixes and improved application stability.
- Collaborated closely with developers, testers, business analysts, and marketing teams to ensure a clear understanding of project requirements and remove obstacles to customer success.
- Implemented key process improvements in testing practices and technologies, increasing overall testing efficiency by 25% and reducing defect resolution time by 30%.
- Introduced process improvements from QA discussions, reducing test execution time by 30%.
- Streamlined the setup and configuration of virtual environments and servers, cutting deployment time by 20%.
- Resolved over 200 customer-reported issues, contributing to a 25% increase in user satisfaction.
- Played a key role in major software releases, maintaining a 98% defect-free rate on initial deployment.
- Ensured transparency and alignment by providing management with structured weekly and daily reports.
- Conducted functional, exploratory, and regression testing to enhance mobile application stability and performance.
- Performed root cause analysis on major defects, reducing recurring issues by 35%.

Diasoft, Cheboksary, Russia · Software QA Engineer (May 2016 – Apr 2018)

- Led the execution of manual and automated testing for enterprise applications, ensuring compliance with business and technical requirements.
- Developed and maintained 500+ test cases, improving test coverage and efficiency.
- Detected and documented 300+ defects, improving system reliability and performance.
- Collaborated closely with developers to reduce critical bug turnaround time by 40% through detailed defect analysis and debugging support.
- Drove knowledge-sharing initiatives by mentoring junior QA engineers and standardizing testing practices across teams.

EDUCATION

Master of Economics and Management, (Sep 2009 – Jul 2013)

Saint Petersburg State University of Engineering and Economics
